

Constellation App

User Guide

1. Getting Started

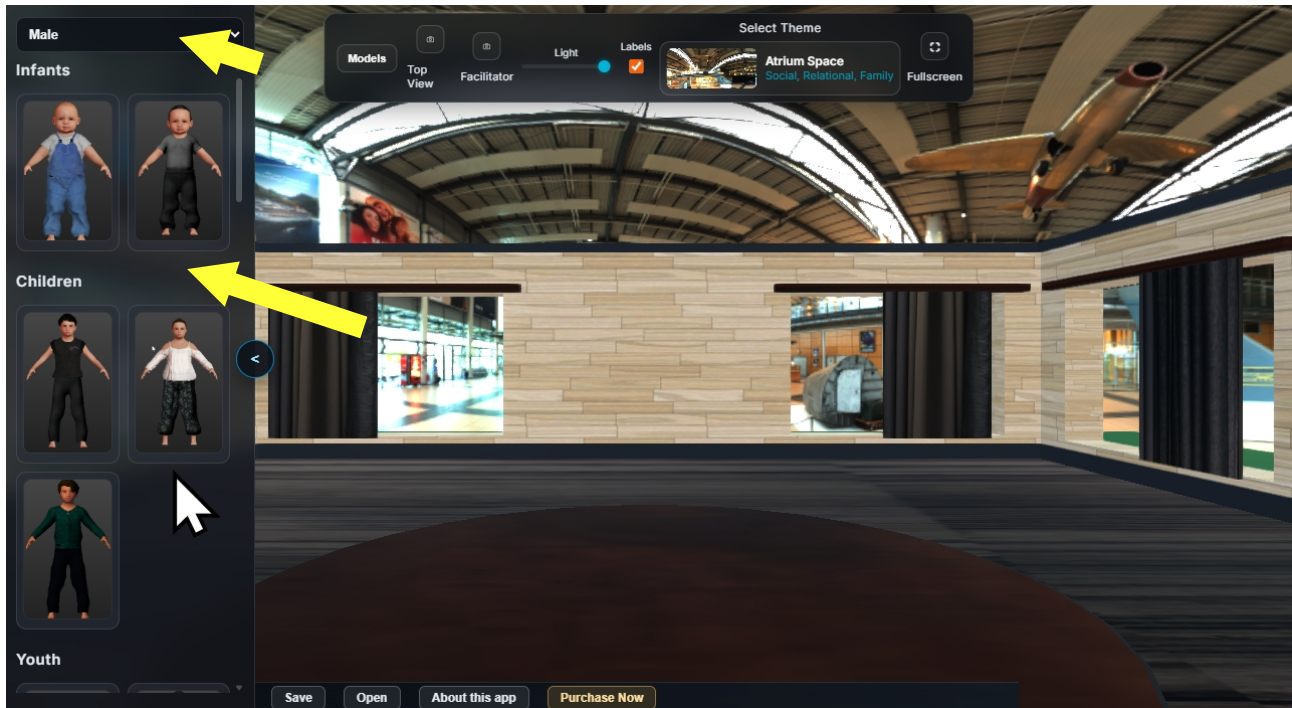

When you launch the app, you will see the **Unlock Page**.

Here, you can either start a **free 7-day trial** or **activate your subscription** by entering your activation code.

2. Model Library

The left panel displays all available models in the app.

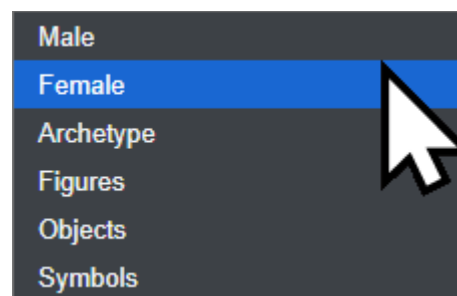

Human models are organized by life stages:

- Infants
- Children
- Youth
- Adults
- Midlife
- Seniors

Additional categories include:

- 30 Male Models
- 30 Female Models
- 12 Archetype Models
- 30 Figures
- 35 Objects
- 35 Symbols

3. Adding a Model

To add a model to the room, simply **double-click** on it.

4. Selecting a Model

To select a model in the room:

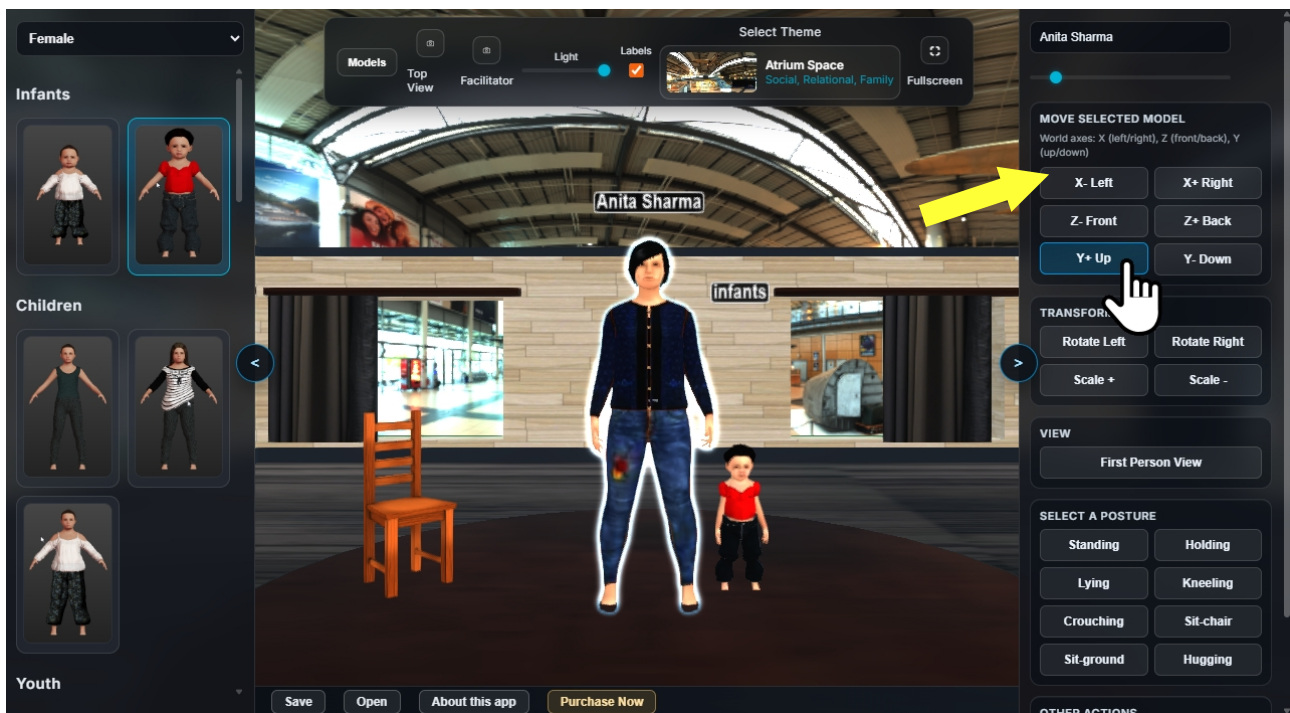

- **Right-click** on the model, OR
- Select it from the **“Models” list** in the top bar

5. Editing Model Properties

When a model is selected, the right panel will open. From here, you can:

- Add a label
- Move the model (left/right, forward/backward, up/down)
- Rotate the model
- Adjust size (scale)
- Choose from 8 different postures
- Hide or delete the model
- Enter First Person View

6. Deselecting a Model

To unselect a model, simply **right-click anywhere in the room.**

7. Changing the Scene

You can change the environment by selecting from **10 different room themes**.

Room Themes

8. First Person View

To enter First Person View:

- Select a model
- Click **“First Person View”** in the right panel

To exit:

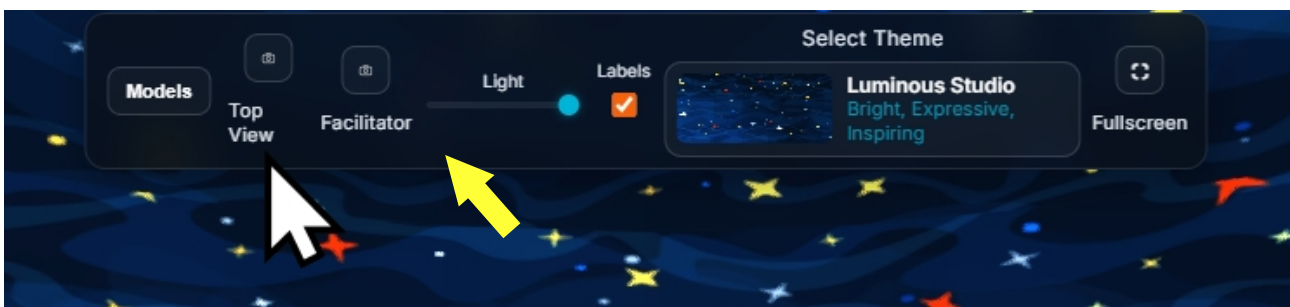

- Click **“Top View”** or **“Facilitator View”** from the top bar

9. Top Bar Controls

From the top bar, you can:

- Select Models
- Change views
- Adjust light intensity
- Show or hide all labels
- Change room themes
- Switch to full screen mode

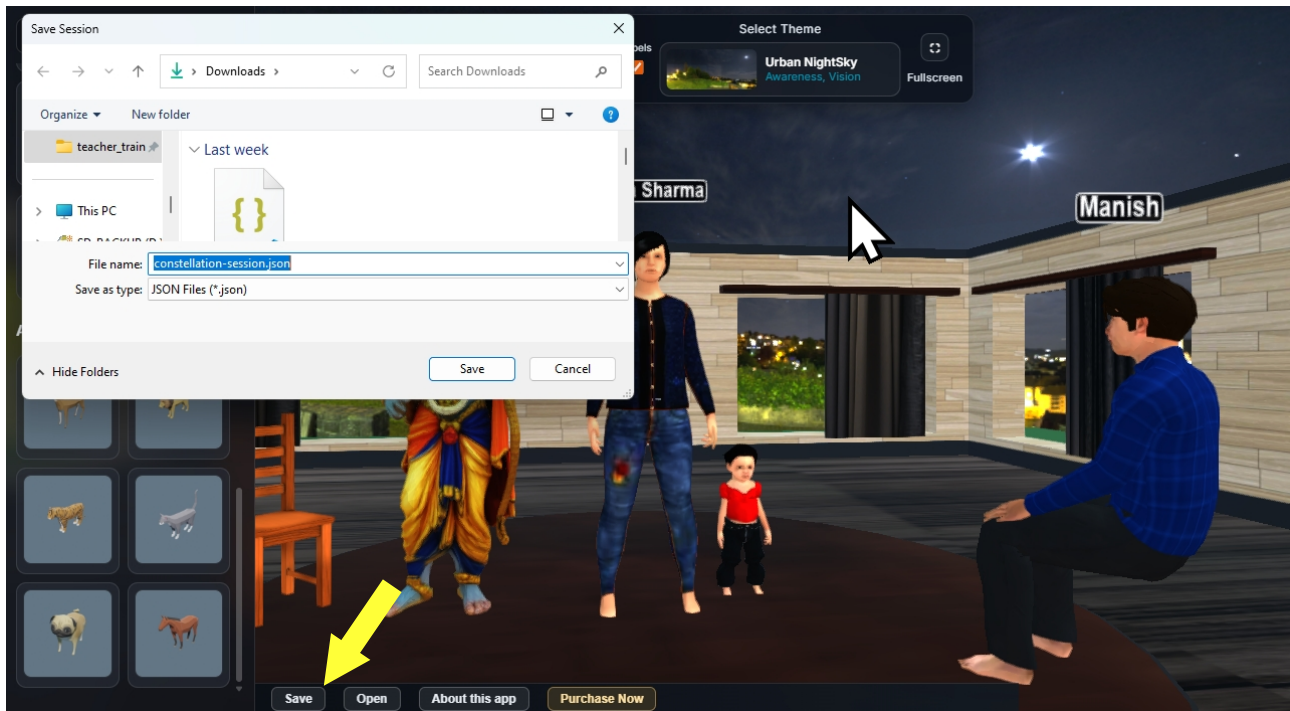

10. Navigating the room

Use **left mouse button** to drag the room. Use **mouse wheel** to zoom in and out.

11. Saving and Loading Sessions

Use the bottom bar to:

- **Save** your current session
- **Open** a previously saved session
